

# NOVEEN

ONE STOP BATHROOM SOLUTION

## *Electronic Bidet Seat*

*Compatibility with non-Noveen toilet pans*

NOVEEN bidet toilet seats can be installed to non-NOVEEN toilets that have compatible dimensions. Use the following guide to see if your toilet can accommodate the NOVEEN electronic bidet seat.

DIMENSION		DESCRIPTION	NOTES
A	130 - 190 mm	Distance between the toilet seat mounting holes	Ensure that the holes will accommodate the bidet seat as the space between seat mounting holes may vary.
B	434 - 493 mm	Distance from the mounting holes to the front of the toilet pan	If your measurement is shorter than this dimension, the seat will significantly overhang the rim.
C	355 - 365 mm	Toilet pan width	If the width of your toilet pan is less than this dimension, the seat will significantly overhang the rim.
D	> 350 mm	Distance from the toilet bowl end to the front of the pan	If your measurement is shorter than this dimension, the seat will not fit.
E	≥ 100 mm	Distance from the toilet suite and a wall, cabinet, or other fixture	Recommended minimum clearance for maneuverability and proper seat operation.
F	≥ 520 mm	Distance from the base of the cistern to the front of the pan	If your measurement is shorter than this dimension, the seat will not fit.
